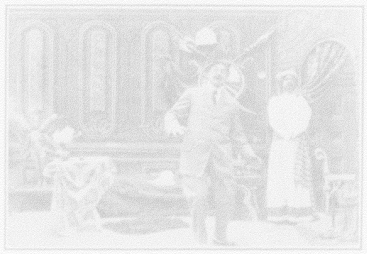
THE HAT OF FORTUNE.

LENGTH, 450 FEET.

COPYRIGHTED 1908

A party travelling in the Orient buys all kinds of curios. Among those a hat with which goes the following legend—"Whoever can put on this hat will have good luck forever." The purchaser tries on the hat but it flies off of his head. He decides to send it to his friend but he neither can wear the hat. After many funny wanderings the hat comes in the possession of a colored man upon which fortuns showers its fortune. An extremely funny Film.



No. 125

HEATING POWDER.

LENGTH, 410 FEET.

COPYRIGHTED 1908

Professor Smarty has invented a new powder which heats up everything it touches. His little son decides to have some fun with this powder and as the picture proves he really has until at last he burns his own face. The picture is so full of comedy that it is impossible to describe it in this short space.
